DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 8-12 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest a workpiece positioning tool comprising: a generally flat base member, said base member having first and second legs joined at an angle, said leg ends and front edges of said first and second legs being unobstructed, wherein said front edges are located along an interior of said angle and said back edges are located along an exterior of said angle; and a void extending upwardly from said base member and between said first and second adjacent ends of said first and second sidewalls in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents disclose workpiece positioning tools Ferguson et al. (U. S. Patent No. 1,032,594) and West (U. S. Patent No. 660,876).
